

Assignment7 (LaTeX)

- **Assignments will be evaluated by the TAs.**
- **Copying is strictly prohibited. Any case of copying will automatically result in F for the whole course, irrespective of your performance in the other parts of the lab.**
- **Marks distribution: 20, 20, 20, 40**

(Create separate directories for the individual problems)

Problem1:

Create a one page article, which is exactly the same as the Test_Problem1.pdf file present in the assignment folder. You may use additional packages if needed.

Problem2:

Create an article, which is exactly the same as the Test_Problem2.pdf file present in the assignment folder. You may use additional packages if needed.

Problem3:

Create an article, which is exactly the same as the Test_Problem3.pdf file present in the assignment folder. You may use additional packages if needed. The images should have to be placed in the image directory.

Problem4:

Create a two page report, which is exactly the same as the Test_Problem4.pdf file present in the assignment folder. You may use additional packages if needed. Refer the equation3 as specified in the document.
